Sir:

GROUP 3600

*summary
correct
date 1/14/04*

A personal interview was conducted by Applicant's representative and Examiner B. King on December 10, 2003. During the personal interview, Examiner King stated that the claims, as revised in an Amendment filed in the U.S. Patent and Trademark Office on November 18, 2003, do not distinguish over the applied reference of record. Applicants' representative discussed additional amendments with Examiner King to expedite prosecution of the application. It was agreed that amending claim 1 to recite "a plurality of second rolling elements" may distinguish over the applied reference of Penrod (U.S. Patent 5,788,341), but that such amendments would require further consideration upon receipt.

Respectfully submitted,

James A. Oliff
